

INTRODUCTION TO ONE POINT PERSPECTIVE DRAWING

YOUR GOAL: MAKE A COPY OF THE DRAWING BELOW

INSTRUCTIONS

1) Watch the video “How to draw a cube in 1 point perspective” by Student Art Guide or scan the QR Code

2). Look at the drawing on the front page and copy Cubes 1-6 on the attached page

- Use the technique shown in the video. Put each cube in the same location as I have. Include the lines that connect to the vanishing point
- Darken your final cube.

3) Watch the video “One Point Perspective Tutorial - Stacking, Holes and Angles” by Student Art Guide or scan the QR Code.

3) Copy Cubes 7-10 like the drawing.

- Draw Cube 7 somewhere below the vanishing line (like Mr. Wadge’s picture) and draw a square hole in the cube.
- Stack Cube 8 on top of Cube 5 (like Mr. Wadge’s picture)
- For #9: Draw an L shape on the bottom left corner (like Mr. Wadge) and connect it to the vanishing line.
- For #10: Draw a triangle in between Cube 4 and 6 (like Mr. Wadge) and connect it to the vanishing line.

4) Use a new piece of paper (or the back of the attached paper) to write your name in block letters with one-point perspective.

- You can use a word other than your name if you want but you need to draw at least three letters
- Draw your own horizon line and vanishing point dot.

NAME: _____

DAY: _____ BLOCK: _____

DRAW CUBES 1-10 BELOW. THE HORIZON LINE AND VANISHING POINT HAS BEEN DRAWN FOR YOU.
